

SCHOLASTIC MATH Grades 6-9

2009-2010 EDITORIAL HIGHLIGHTS

SEPTEMBER

Statistics: reading/making a bar graph

Practice Test: money/consumer math

Pre-Algebra: inverse operations

Problem Solving: finding a pattern

OCTOBER

Statistics: reading a line graph

Practice Test: decimal place value/
computation

Pre-Algebra: order of operations

Problem Solving: logic and reasoning

NOVEMBER

Statistics: reading a pictograph

Practice Test: introduction to fractions

Pre-Algebra: solving for variables

Problem Solving: working backward

DECEMBER

Statistics: reading a double bar graph

Practice Test: least common multiples

Pre-Algebra: solving inequalities

Geometry: naming polygons

JANUARY

Statistics: reading a circle graph

Practice Test: mixed numbers

Pre-Algebra: multistep problems

Geometry: classifying angles

FEBRUARY

Statistics: making a histogram

Practice Test: decimals and percents

Pre-Algebra: equivalent ratios

Geometry: area and perimeter

MARCH

Statistics: making a box-and-whisker plot

Practice Test: percent computation

Pre-Algebra: solving proportions

Geometry: circumference/area of circles

APRIL

Statistics: reading a multiline graph

Practice Test: percent change

Pre-Algebra: positive/negative integer
computation

Geometry: properties of triangles

MAY

Statistics: making a circle graph

Practice Test: probability

Pre-Algebra: coordinate graphing

Geometry: Pythagorean theorem
